

# Sailfish SDK install/hackfest at:

Warsaw Hackerspace

Today powered by: `fk_lx` and Sts keeps

# Agenda

- Who we are? What we do?
- What is Sailfish and a bit of history
- SDK and running some demo app
- Hacking/discussion/Q&A/flame wars

# Who we are? What we do?

- **Carsten Munk** aka **Stskeep**s
- Mer project co-founder
- libhybris creator
- openness and meritocracy supporter
- working for Jolla as Chief Research Engineer

Stskeep on IRC, Meet me at #mer #nemomobile, #sailfishos and more ...

- Twitter: @Stskeep

# Who we are? What we do?

- **Filip Kłębczyk** aka **fk\_lx**
- Dolphinaric project founder (educational project about Mer/Nemo)
- PLUG, OSM-PL member, Co-founder of HS Silesia in Katowice
- main organizer of PyCon PL ([pl.pycon.org](http://pl.pycon.org)) and SmartDevCon ([smartdevcon.eu](http://smartdevcon.eu))
- Initiator of Sailfish SDK hack/installfests

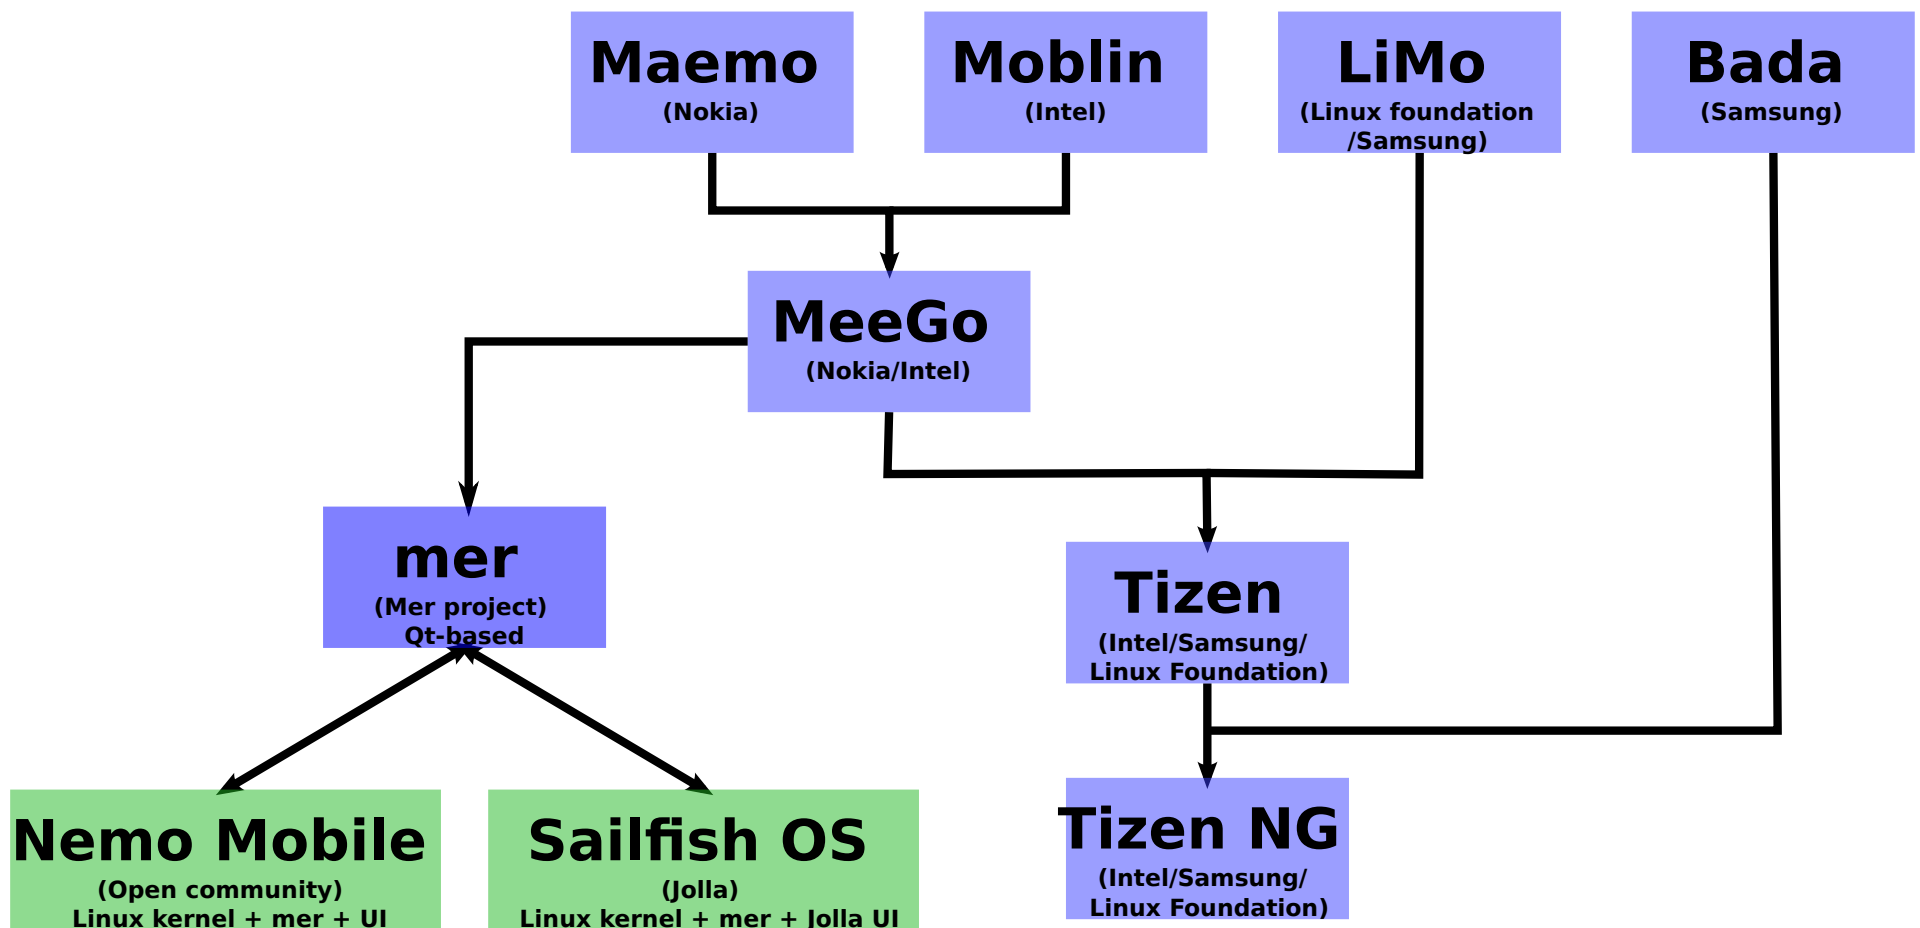

fk\_lx on IRC, Meet me at #mer, #nemomobile, #sailfishos, #hackerspace-silesia.

- Twitter: @fk\_lx

# Sailfish

- What is Sailfish?
  - Linux based operating system
  - Built on the heritage of MeeGo
  - Runs Qt/QML, HTML5 and Android apps
  - Using Qt5 + Wayland (new!)
  - Developed by Jolla
- What Sailfish is not:
  - Yet another Android based OS
  - Fully open (but it is mostly open, based on Mer/Nemo; Sailfish UI part is currently closed)

# „Genealogical” tree

# What is Mer?

„Mer is an open, mobile-optimised, core distribution aimed at device manufacturers; powered by Qt/QML and HTML5 - openly developed, inclusive, and meritocratically governed.” from [www.merproject.org](http://www.merproject.org)

- What projects/products use Mer
  - Nemo Mobile
  - Plasma Active (like KDE for tablets)
  - Cordia
  - Seadot
  - Sailfish

# Qt, Sailfish, ...

Switching to other presentation  
(made by Lucien XU)

# FAQ

- Can I run Sailfish on my awesome <put here the name of your Android phone model> smartphone?

Currently not, but who knows what future holds ;-)  
Anyway now you can probably try running Nemo Mobile on your device.

- When devices with Sailfish will be available?

End of 2013/Beginning of 2014

- Where to look for information about Sailfish?

[www.sailfishos.org](http://www.sailfishos.org)

# FAQ

- How can I help?

- Contribute to Mer and Nemo Mobile

People needed in different fields – see wiki, join irc channel - don't be shy, this community doesn't bite (usually ;-))

- Contribute to Dolphinaric project – help create educational material about Mer/Nemo and related projects
  - Tell your friends about this stuff, help spread the word! Organize events, hackathons etc.

Let's move to installing Sailfish SDK
